

DEVELOPMENT HISTORY.

Jack Derby, Founder of Pillar of Light Enterprises, is a Crystal Scientist, Free Energy Researcher & Inventor of the Violet Ray Crystal Resonator. The Twin Vortex Living Water Device is a combination technology of the Resonator with the findings of Viktor Schauberg (Austrian Water Specialist), that re-structures & revitalizes water.

WHAT DOES THIS DEVICE DO THAT OTHERS DO NOT ?

Tap water is damaged by the constant high pressures of our domestic water systems and by exposure to harmful electromagnetic radiation such as AC power, TV, Radio, Microwaves, etc. It is being polluted with chemicals such as chlorine and fluoride. Water is also subject to the negative vibration patterns of mankind's mental & emotional creations.

Filtering, distilling, or using reverse osmosis DOES NOT restore water to its ORIGINAL quality. Conventional purifying methods remove contaminating particles, however, the vibration signatures of toxins and heavy metals remain in the water. To neutralize harmful signatures & to reverse pressure & radiation damage, it is necessary to re-structure water on a vibrational basis; at the atomic and homeopathic level.

The Violet Ray Twin Vortex Living Water Machine does just that & more, by revitalizing water to its highest natural state & by restructuring it beyond what nature can do with the blending of precise physical/metaphysical principals that do not occur in natural systems with as much control or focus.

BENEFITS OF USING THE TWIN VORTEX LIVING WATER

Besides tasting great, people report: Enhanced recovery from injury, illness and operations. Leading causes of disease are often attributed to malnutrition & toxins. The Living Water promotes absorption of nutrients from our food & drink while making them taste better along with growing our foods healthier, faster & with higher yields. It also assists in eliminating toxins

from our body. The “reduced” molecular and micro cluster structure, enables more efficient hydration of the cells & aids intercellular communications, boosting our immune system integrity. The water vibrates in harmony with nature & brings us a higher order of structure that assists antioxidant & PH balanced processes within the cell. This pristine re-structuring also increases its ability to be “programmed” for higher intent & Divine Will.

The Twin, or Dual Vortex, is designed to promote balance between our physical & spiritual senses as well as our feminine & masculine energies.

(See other side for more details on benefits & design.)

HOW THE DEVICE FUNCTIONS.

The device uses tap water, entering through a conventional filter, which serves to protect the machine from particle contamination. The water then continues through a pressure regulator valve preventing system pressure fluctuation. It is then directed to the Vortex Tubes where it is injected at the periphery in a tangential motion facilitating the formation of a vortex. The water in each vortex spins in the opposite direction of the other. Looking from the top down, the energy flow resembles an infinity sign.

At the bottom of each vortex, the water passes through a calibrated orifice before it “explodes” into a diffuser. For the right side diffuser, the 732 trillion Hz. frequency (Violet Ray frequency) is introduced via two gold plated electrodes. A 198.87Hz (note G) pulsed DC “Moon” wave serves as the carrier. For the left side, 297.97Hz (Note D) “Sun” wave is the carrier. This is the “Heart” of the device, where the water, which has been energetically prepared by the vortex, is being structurally changed by the introduction of frequencies generated by further improved Tesla Coil Technology creating etheric electromagnetic resonance.

The restructured water then continues on its way over specially cut Crystals wrapped in nearly pure silver coils that are connected to a Triad “God Energy” Receiver Antenna installed at the top of each vortex tube. It incorporates an Amethyst Crystal, and a Light Emitting Diode. The assemblies charge the water with subtle GOD energies .

As the water flows around the charged crystal, it is also exposed to an array of light frequencies from LED's mounted on a gold plated “Earth Star” Integrated Circuit Board. Once past the LED's and the crystal, the water enters the “Sea of Tranquility”. This is a horizontal tube in which the water is stabilized, allowing it to “digest” the described treatments. In the Heavy Metal Trap, a gold electrode adds 250.56Hz (Note B, Earth & Heart Chakra Frequency), which finishes the process. Notes D, G & B are a G Major Chord.

The Living Water Device is equipped with a fitting that accepts a regular garden hose for the water supply. The Heavy Metal Drain & the Vortex Tube Skimmers, leave the machine via a hose which goes to a drain.

Earth Star. The gold plated Earth Star Circuit Board that holds the LED's is a six-sided Star of David with two concentric circles, concentrating the star energy & passing it on to the water.

LED's. Five of the six colored LED's represent the most dominant elements found in the human body & add those vibrations to the water.

BLUE :	Oxygen	RED :	Hydrogen
YELLOW :	Carbon	ORANGE :	Calcium
GREEN :	Nitrogen		

WHITE : Represents all colors combined & Christ Consciousness.

TWIN VORTEX BENEFITS AND FUNCTIONS

The Twin Vortex design offers functionality producing water that helps to balance our physical/spiritual energies as well as our feminine/masculine natures.

The Twin Vortex Water Device is the jurisdiction of
Arc Angel Zadkiel and Lady Holy Amethyst.

The vortex tube dimensions & placement follow
SACRED GEOMETRY & PHI RATIOS.

In the chart below, notice the different parameters of the left and right vortices.

	Left Vortex	Right Vortex
Spin Direction	Counter-Clockwise	Clockwise
Orientation	Masculine	Feminine
Frequency/ Note/ Celestial	297.97Hz - D Sun	198.87Hz - G Moon
Energy Flow	Contracts	Expands

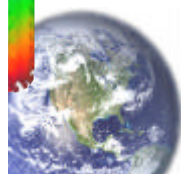

@Metal Trap - 250.56Hz - B (Earth & Heart)

The opposite energies shaped in the left & right vortices merge into a highly focused holistic pattern. Notes D & G are then injected. By introducing a 3rd & final frequency of 250.56Hz (Note B) (Earth) at the Heavy Metal Trap, the basic "G" chord of the SOLAR-EARTH-MOON HARMONIC is complete. These values are adjusted to "Cosmic Pitch"; a slight correction to concert pitch & more in harmony with Solar System Energy. These frequencies serve as carrier waves for the high order harmonic signals that are primarily the VIOLET, GOLDEN & ELEMENTAL RAYS coming from the TESLA COIL. Divine balance is achieved with the blending of the water in the "Sea of Tranquility" tube.
